Accreditation Statement: This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the University of Alabama School of Medicine (UASOM) and American Tamil Medical Association (ATMA). The UASOM is accredited by the ACCME to provide continuing medical education for physicians.

The University of Alabama School of Medicine designates this live activity for a maximum of 7.5 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The University of Alabama School of Medicine requires full disclosure of relevant financial relationships to ensure that all CME activities it sponsors are free of commercial influence and bias, all research reported is scientifically valid, all information is accurate and all recommendations are made with the interest of the public placed above any individual interests. The Division of CME requires that anyone who is in a position to influence or control the content of CME activity disclose relevant financial relationships with commercial interests so that any conflict of interest can be identified and resolved prior to the start of the CME activity.

CURRENT CONCEPTS IN MEDICINE AND HEALTH CARE 2019

Statement of Need

1. Modern technology and advancements in Interventional Medicine has allowed expanded indications in diagnosis and management of many diseases.
2. The changes in health care model have been impacted by external forces. Due to rapid developments in these areas knowledge gap has been created. These two half day educational program by experts are designed to close the gap with specific directed didactic lectures in interventional Medicine and Health care. The program includes case presentations and interactive dialogue with experts.

Learning Objectives

At the end of the two half day program the participants should be knowledgeable on

1. CT&MRI assessment of acute neurological event and tailored therapy
2. Monitoring of heart rate thru wireless electronic programs and interventions
3. CT& MRA base aneurysm monitoring and interventions
4. CT & MRI based assessment of Pancreatic diseases
5. Use of Updated guidelines for eradication of Hepatis C virus
6. Patient safety in Medicine
7. Literature evidence of physician workforce estimates and solutions

Target Audience

Physicians, Fellows and Residents, Allied professionals and Medical Students

Fees

CME is free for Retired Physicians, Residents and Medical Students.

For others CME fee is included in the Registration.
